

CLEO LexiCom

The Foundation for Your
Secure File Transfer

Why Secure Communication is Key.

Secure data flow doesn't need to be complicated. Whether you're sending an invoice, patient data or order information, sending one invoice is easy. Now sending hundreds of invoices to suppliers around the world can be just as simple. Meeting each vendor's individual requirements, mandates and schedules can get complicated quickly. That's exactly why CLEO LexiCom™ is key. It ensures you are able to do business when and where you need to via Internet file transfer. Internet communications are changing the way we do business at a rapid pace. It's time you had a rapid and secure communication solution to make sure you can connect today and into the future – well in advance of any security breach that could have a damaging effect on your business. CLEO LexiCom makes it easy. And, easy leaves you in compliance with all of your assets protected.

Client and Partner Ready

- ▶ Easy and rapid implementation allows most users to be up and running in 30 minutes.
- ▶ We do the work for you. With more than 800 pre-configured connections, you can connect to popular trading networks immediately, including: Walmart, Target, Food Lion, Home Depot, Honda and more.
- ▶ Leverage existing technology including EDI translators, operating systems and IT infrastructures to guarantee you've optimized your resources.
- ▶ Manage partner relationships more efficiently with full-featured Certificate Management to complete the audit trails you need.
- ▶ Optimize scheduling with CLEO LexiCom's Integrated Scheduler, removing bottlenecks and simplifying workflows.
- ▶ Proven and tested in more than 100,000 installations and backed by Drummond Certification, you can be sure that you are in compliance.

Putting Secure File Transfer to Work for You

- ▶ Visibility allows real-time access to data transfers.
- ▶ Security of the most common protocols, including: AS2, AS3, ebMS 2.0 (eXML Messaging Service), *fast*™, FTP, FTPs, SSH FTP, HTTP, HTTPs, IBM® WebSphere® MQ, MLLP, OFTP, OFTP2, RNIF, SMTP, SMTPs and Web Services.
- ▶ Automatic alerts and email notifications let you know realtime what transfers have occurred whether you're onsite or working remotely. Stay informed anytime, anywhere.
- ▶ Reporting provides a closed audit trail and validates transfers – helping you avoid penalties and saving you time and money.

Growing with CLEO LexiCom

- ▶ Start with one or as many connections as you need.
- ▶ Add even more security with CLEO VLProxy – managing your files in the DMZ.
- ▶ Add remote access with the Web Interface (GUI) option.
- ▶ Consider a multi-connection pack for consistent, easy rollouts.
- ▶ Ready to move to Enterprise Managed File Transfer? Check out CLEO VLTrader™. Same interface. Increased Functionality, inside and outside of your organization.
